Curriculum Team Professional Learning Rationale

Catholic Education Western Australia's (CEWA) *Vision for Learning* states that the vocation of teaching demands careful preparation and continuing readiness to renew and adapt to the challenges of the 21st Century and beyond. Each professional learning event facilitated by the Curriculum Team strives to deliver contextual and exceptional learning experiences for all CEWA staff.

Professional learning must be differentiated; what is needed for one school or team may not be needed by another. Each person's role, strategic priorities and context play a large part in determining what type of professional support and experience is required. All professional learning provides the opportunity to build teacher capacity in order to promote student learning.

High-quality professional development provides access to new technologies for teaching and learning. We actively engage teachers in meaningful and relevant activities for their individual contexts and promote peer collaboration and community building. The Curriculum Team strives to build capacity in CEWA schools and support a common vision for student learning.

The Curriculum Team is guided by the AITSL Teacher Standards, the Western Australian Curriculum and CECWA *Strategic Directions 2019-2021*. Our vision is to work alongside educators to develop capacity in teaching and learning, enabling children to flourish in our Christ-centered, child-focused schools.

Please note: Enrolments will be checked one week prior to the professional learning event. If there are fewer than 10 participants registered, the event will be referred to the Curriculum Team leader to determine viability.

TITLE

Leading Learning with Technology

Overview

This program is designed to provide support for K-12 educators who want to purposefully integrate technology across the curriculum school wide. These two professional learning days will seek to explore the practical implications for integrating the ICT General Capability in shared or 1:1 device classrooms. Informed by current digital education research and using models of contemporary digital pedagogical frameworks, this program encourages participating staff to conduct an inquiry into their current digital integration and pedagogies. Participants will be invited to collaborate and share their experiences creating contemporary and personalised teaching and learning strategies using a variety of digital platforms, devices and tools.

Further Information

Memo and agenda will be published 3 weeks before registration closes

Target Audience

School Leaders and Lead Teachers involved in whole school digital pedagogical transformation

TITLE

Digital Technologies – Content Coalition (Mathematics)

Overview

This program supports teachers who want to develop their skills to generate digital content for teaching and learning in upper primary and lower secondary settings.

Further Information

Content Coalition Mathematics extends the work achieved by the 2018 Semester 2 Content Coalition for the Western Australian Yr. 5, 6, 7 and 8 Mathematics Curriculum. Teachers are supported to develop digital courses and multi-touch books with iTunes and eBooks Author and a range of iPad applications. These resources are published to a global audience through the iBook stores.

Target Audience

Teachers of Year 7 or Year 8 Mathematics

Duration

4 days

Dates

Day One – 13 March 2019
Day Two – 3 April 2019
Day Three – 20 May 2019
Day Four – 27 June 2019

TITLE

Exam Writing for ATAR Sciences Years 11 and 12

Overview

Producing an exam paper is not as hard or as time-consuming as you may think.

By following the processes learned by previous SCSEA examiners and the provided resources, you can develop exams and tests that are unique and specifically targeted to your students, your teaching program and your assessment outline.

These sessions will be presented by teachers or past teachers who have vast experience at writing examination type questions for each of the subjects listed below.

Attendees will work in small groups designing questions to be discussed in groups.

Further Information

Memo and agenda will be published 3 weeks prior to the event

Target Audience

Teachers new to teaching ATAR subjects or who have only taught them for a year or two.

Duration

0.5 day each subject area

Dates

These will be in Term 1 for each of the following subjects:

Biology :	12 March 8.30 am to 11.30 am
Human Biology:	12 March 12.30 pm to 3.30 pm
Chemistry	13 March 8.30 am to 11.30 am
Physics	13 March 12.30 pm to 3.30 pm
Psychology	14 March 8.30 am to 11.30 am
Earth and Environmental Science	14 March 12:30pm to 3:30 pm

Closing Date

One week prior to each PL

Cost

CEWA schools \$40 per participant per half-day

Overview

These are the first in a planned series of workshops for teachers new to teaching years 7 to 10 Science subjects, particularly those with a limited background in certain areas in this most varied field. As tertiary level teacher education does not cover all Science learning areas, these learning opportunities are intended to develop and extend the existing knowledge of teachers.

The days are designed to give attendees tools and ideas and provide an opportunity to ask questions of more experienced teachers.

Further Information

The content is particularly designed for the following:

- Teachers with less than 3 years teaching experience in lower secondary science.
- Teachers with little or no pedagogical training in lower secondary science education.
- Teachers who are teaching years 7, 8, 9 and/or 10 for the first time.
- Teachers who are looking for collegial support in teaching lower school science.

Target Audience

Teachers new to teaching science in lower secondary.

Duration

2 x 1 day (8.30 am to 2.30 pm) REPEAT SESSIONS

Dates

Thurs 31 Jan QR
Tues 12 Feb

Closing Date

One week prior to each PL

Cost

CEWA schools \$100 per participant per day

TITLE

Teaching Science ATAR and General Courses

Overview

This is the first in a planned series of workshops for teachers relatively new to teaching ATAR science subjects. These days are designed to give attendees tools and ideas to help them begin their journey and an opportunity to ask questions of experienced teachers. The initial workshop will address planning for teaching/learning and assessments that meet the requirements of SCSA.

Further Information

The content is particularly designed for the following:

- Teachers with less than 3 years teaching experience in upper secondary science.
- Teachers who are teaching year 11 or 12 ATAR Science or a General Science course for the first time.
- Teachers who are looking for collegial support in teaching upper school Science.

Target Audience

Teachers new or with less than three years teaching an ATAR or General science subject.

Duration

ATAR – 1 day (8.30 am to 2.30 pm) for each subject combination
General – 2 x 0.5 days (8.30 am to 11.30 am) REPEAT SESSIONS

Dates**ATAR Biology/Human Biology**

Wed 13 Feb

ATAR Chemistry/ Physics

Thurs 14 Feb

General Integrated Science/Human Biology

Thurs 7 Feb OR Wed 20 Feb

Closing Date

One week prior to the event

Cost

CEWA Schools \$40, non-CEWA Schools \$50 per half-day
CEWA Schools \$100, non-CEWA Schools \$120 per day

TITLE

ATAR Science Subject Examination Reviews

Overview

This will provide an opportunity for Teachers of Year 11 & 12 to meet and discuss the 2019 ATAR Exam. There will include discussion on assessments and model answers.

Further Information

Attendees are required to bring a copy of the recent ATAR exam for the subject they are attending and their worked solutions to it.

Target Audience

Teachers of Year 11 and 12 ATAR Science subjects

Duration

0.5 day each subject area.

Biology, Human Biology, Chemistry, Physics, Psychology, Earth and Environmental Science and Integrated Science.

Dates

Term 4: TBA when ATAR exam timetable promulgated

Closing Date

One week prior to each PL event

Cost

Free session
